## REPORT ON ARMY BEEF

Finding of the Court of Inquiry Is Made Public.

ITS IMPORTANT FEATURES.

Canned Stuff Declared Bad, but Refrigerated Was Not Doped.

MILES AND OTHERS CENSURED.

Commanding General Failed to Promptly Notify the Proper Authorities That Food Was Unfit, and General Eagan Bought Too Freely of Untried Rations.

Washington, May 8.—By direction of the president, who approves the findings, Acting Secretary of War Meiklejohn made public the report and findings of the military court appointed to investigate the charges made by Major General Miles, commanding the army, that the beef supplied to the army during the war with Spain was unfit for the use of the troops.

The most important features of the report are: The finding that the general's allegations that the refrigerated beef was treated with chemicals were not established; that his allegations concerning the canned fresh or canned roast beef were sustained as to its unsuitability for food as used on the transports and as a long-continued field ration; censure of General Miles for "error" in failing to promptly notify the secretary of war when he first formed the opinion that the food was unfit; censure of the commissary general (then General Eagan) for the too extensive purchases of the canned beef as an untried ration; censure of Colonel Maus of General Miles' staff; the finding that the packers were not at fault and that the meats supplied to the army were of the same quality as those supplied to the trade generally; and the recommendation that no further proceedings be taken in the premises.

The conclusion of the court adverse to further proceedings based upon the charges is as follows:

"It has been developed in the course of the inquiry, as recited in this report, that in some instances individuals failed to perform the full measure of duty or to observe the proprieties which dignify high military command; but the court is of the opinion that the mere statement in the official report of the facts developed meets the ends of discipline, and that the interests of the service will be best subserved if further proceedings be not taken."

### MILES CENSURED.

There is more or less criticism of General Miles in various portions of the report. Probably the most direct instance is the one which states that, beyond the criticism of officers found elsewhere in the report, "the court finds that against none of the officers commanding corps, divisions, brigades and regiments and their staff officers should a charge of guilty be brought."

"The court also finds that the major general commanding the army had no sufficient justification for alleging that the refrigerated beef was embalmed or was unfit for issue to troops. It also finds that he committed an error in that, having belief or knowledge, as claimed, that the food was unfit; that it caused sickness and distress; that some of it was supplied under the pretense of experiment; that other beef was embalmed, he did not immediately report such knowledge or belief to the secretary of war to the end that a proper remedy might be promptly applied."

The censure of Colonel Maus, inspector general on General Miles' staff, is based upon his failure to call attention to charges concerning the beef at Chickamauga contained in a report of inspection made by Dr. (Major) Daly on the 26 of October last, in which he stated his belief that the beef was chemically treated. "The silence of Colonel Maus," says the report, "on so important a matter as the chemicalized beef reported by Major Daly and personally known to himself is most remarkable."

The report places the quantity of canned roast beef purchased for the war by the commissary department at 6,847,174 pounds, including 350,000 pounds which was brought from Liverpool and other English ports. This amount is characterized as excessive, and the commissary general (General Eagan) is severely criticised in several parts of the document on this score.

The court finds that there was neglect in Cuba, and to a less degree in Porto Rico, in delivering the refrigerated beef.

## HER SUFFERINGS O'ER.

Death of Mrs. William C. Whitney After a Year of Agony.

New York, May 8.—It is learned Mrs. W. C. Whitney died at her home, Westbury, L. I. Three physicians were constantly in attendance at her bedside. Mrs. Whitney sustained a serious injury to her spine over a year ago, by being thrown from her horse. She has since been undergoing treatment, and last summer was removed from her Westbury home to Bar Harbor, Me. Some months later she was brought back to Long Island in a yacht. At that time her condition was reported to be somewhat improved. This apparent improvement continued up to a short time ago, when her case took a change for the worse.

### Plans of Annexationists.

New York, May 6.—The Cuban-American league is trying to pave the way for the annexation of Cuba by promoting the study of the English language on the islands and by encouraging and assisting the efforts of the annexationists in Cuba. According to a letter received by President William O. McDowell of the league quarrels and discussions among the independentists in Cuba will greatly aid the annexationists' work and thousands who are now afraid to declare themselves will flock to their standard as soon as assured that under United States protection they will be allowed to vote as they please.

### Sewerage Irrigation.

Washington, May 8.—The United States geological survey has just published a report on sewerage irrigation, which contains much interesting data on stream pollution and sewerage disposition. This publication reports a total of 143 sewage purification plants in operation in the United States and Canada, about 120 of them having been either built or projected in the last 12 years. It says that it is possible as soon as the advantages of irrigation and filtration are more fully known a number of chemical purification plants will be changed to either irrigation or filtration.

### Looted by Cracksmen.

Dresden, Ont., May 8.—The local branch of the Canadian Bank of Commerce was robbed of an amount estimated at about \$10,000. The woman who takes care of the bank offices was the first to discover the robbery. The front doors of the bank had been pried open. Two holes were bored in the vault door, a charge of nitroglycerin was exploded and then the inner safe was attacked in a similar manner. The burglars gathered up the currency and fled. None of the papers in the vault were disturbed. The manager of the bank says the robbers did not get more than \$2,000.

### Ended in Suicide.

Minneapolis, May 8.—There was a sensational shooting episode on the street in front of the postoffice. Bernard Golling attempted to shoot his wife, from whom he was seeking a divorce. He fired one shot, when Judge Gillfillan, who was passing by, intervened and struck Golling's arm, causing the second shot to go wild. A police man who attempted to arrest Golling was the target of the third shot, but stumbled and fell, allowing the bullet to go over his head. Golling then committed suicide.

### Car Equipment Company.

San Francisco, May 8.—Articles of incorporation have been filed in the office of the county clerk by the National Car Equipment company, with a capital stock of \$10,000,000. The incorporators say that the main purpose of the company is to obtain control of patents now in possession of a local corporation, for preventing the flattening of car wheels and for regulating the pressure of airbrakes.

### Mishap to Bennington.

Washington, May 8.—The following dispatch has been received at the navy department from Admiral Dewey at Manila: "The Bennington grounded, shoal not on chart, on north side of Panay, Philippine Islands. Came off 23 hours later. Has been examined by divers. Damage is not serious, but is necessary to dock vessel. I have sent to Hongkong. No blame attached to any one."

### Agrees to a Settlement.

Managua, Nicaragua, May 8.—The Bluefield correspondent telegraphs that Captain William L. Morey, the United States minister to Nicaragua, has agreed to a settlement of the claims against the Nicaraguan government. The settlement, according to the correspondent, is favorable to Nicaragua and is in the nature of a triumph for the minister of foreign relations.

St. Paul, May 8.—John C. Wagoner, who has carried a bullet in his head since the Custer massacre, in 1876, committed suicide with morphine at Stillwater. He was chief of General Custer's pack train and was at the massacre of Little Big Horn, being granted a special pension.

## APPROVED ITS POLICY

Administration's Attitude Toward the Philippines.

INNING OF EXPANSIONISTS.

Noted Speakers Express Their Sentiments at Three Mass Meetings, Which Adopt Resolutions Declaring Against the Critics.

Chicago, May 8.—Three mass meetings were held in Chicago to voice the approval of the policy of the administration with reference to the Philippine islands, and to protest against the sentiments expressed last Sunday at the "anti-expansion" meeting held in Central Music hall. The aggregate of attendance was probably 10,000. The presiding officers of the three meetings were Judge Oliver H. Horton, ex-Judge John Bartol Payne and Thomas B. Bryan. Every mention of President McKinley or Admiral Dewey brought forth thunders of applause. The speakers were William Dudley Foulke of Indiana, Bishop Samuel Fallows, Congressman Jonathan P. Dolliver of Iowa, ex-Congressman George E. Adams, Judge Richard S. Tuthill and Rev. Dr. P. S. Henson.

The Hon. William Dudley Foulke of Indiana spoke in part as follows:

"We come to testify our loyalty to our country and to the administration which represents that country in its conflict with an armed foe. We come to denounce the efforts of the brood of malcontents who would sow the seed of discord among our people and paralyze the arm of our executive in dealing with insurrection. We come to question the inspired infallibility of those who know so much better than the man at the helm how the vessel should be steered."

"The criticisms of our president, the encouragement given to Agoncillo while he was in Washington, the telegrams sent to our soldiers not to enlist may be inspired by the purest motives, but their inevitable consequence is to give aid and encouragement to our enemies in time of war. In the great struggle for our national life, some 30 years ago, there was a large body of men in the north who gave support and sympathy to the Confederacy in just the same way. They urged our young men not to enlist, they declared our inability to overcome the south, they denied our right to subjugate a sovereign state, and all through the war they hung heavy upon the Union cause."

"The same spirit is rife today. It finds its manifestations in anti-imperialistic meetings in Boston, Chicago and other large cities. It carps and criticizes and seeks to weaken the army while that army is in conflict with the enemy. Whatever may be the intentions of those who take part in such demonstrations, the effect is one of misplaced philanthropy, of maudlin, mawkish sentimentality, and the consequence of the act is to paralyze the arm of the executive in his effort to subdue an armed rebellion."

"Let us upon our part do whatever we can by word and example to strengthen the power of the general government and assure the president that he has our loyal support, and that he can count upon our patriotic devotion."

Resolutions upholding the administration's policy in the Philippines and deploring the indirect encouragement given the enemy by the critics of such policy were adopted unanimously at all the meetings. A copy was read of an inflammatory proclamation issued by General Aguinaldo to his followers, and cabled to the war department by General Otis at the time, in which the rebel leader ordered the extermination of the inhabitants of Manila, Filipinos excepted, on the night of Feb. 15, 1899.

### Changes in French Cabinet.

Paris, May 8.—M. Charles de Freycinet tendered his resignation to M. Dupuy, the premier of the portfolio of war. M. Dupuy immediately summoned a meeting of the cabinet, which M. de Freycinet did not attend. At the conclusion of the cabinet meeting Premier Dupuy had a conference with M. de FM. Camille Krantz, at present minister of public works was appointed to succeed M. de Freycinet. Senator Monestier has been selected to succeed M. Krantz as minister of public works.

Washington, May 8.—There is reason to believe that President McKinley has been advised that Admiral Dewey contemplates coming home within a short time. His return will, of course, be dependent upon the success of the commission's present negotiations with the Filipinos. As soon as they have laid down their arms it is expected that he will proceed, with the protected cruiser Olympia, to the United States, probably through the Suez canal.

### River News.

The Stanley is to-night's packet for Pomeroy.

The City of Pittsburg passed up Saturday at noon.

The Urania and Queen City are due down this evening.

The J. M. Howell passed down from the Kanawha with a tow of Kanawha coal for New Orleans for the Southern Pacific Railroad—the first shipment of 100,000 tons for that road.

Master and Pilot Dick Applegate will have command of the Levi J. Workum in the Maysville excursion trade. The Workum brought up a large crowd Sunday, arriving here late in the afternoon and leaving, on return trip, about 7 o'clock.

## A DUMB BRUTE'S LOVE.

A Striking Illustration of This Shown by One of Prof. Gentry's Trained Dogs.

The love which a dumb brute bears his master has often been noticed and commented on, but it has seldom, perhaps, been more strikingly illustrated than was yesterday witnessed at the show grounds of Prof. Gentry.

Included in the large collection of dogs, is a magnificent gray bound named "Hop" that was purchased several years ago from Mr. Theo. Machenheimer, formerly of Maysville, but now living at Montgomery, Ala., where Prof. Gentry's winter training quarters are located.

Mr. Machenheimer is visiting with his family here, and yesterday went out to the show ground to pay "Hop" a visit. He found him in the kennels in company with about a hundred other dogs, lying fast asleep. "Hop!" called Mr. Machenheimer. Aroused from his slumber by the one word, he raised his head, glanced at each of the by-standers, as if he had recognized a familiar voice and was trying to locate it. His eyes finally rested on his former master, and with a joyous bark he instantly sprang upon him, placed his fore feet around his neck, and whining as though crying in his extreme joy, he licked his face and hands, and in every way possible demonstrated his satisfaction and joy at again meeting the man who had once been his master.

It was a touching little scene and many of the spectators as well as the principals in the meeting were deeply impressed.

The Kentucky Society of Chattanooga, which was formed several weeks ago to assist in the dedication of the monument at Chickamauga, will be made a permanent organization. It is composed of about 150 representative Kentuckians located at Chattanooga and Chickamauga. Its President is A. W. Gaines, a lawyer, formerly of Mason County. Its Vice President Sol. Moyes, formerly of Louisville, and its Secretary R. K. Pollock, a young journalist, formerly of Boyd County.

The Epworth League of the M. E. Church, South, has been reorganized with forty-three enrolled members. The following officers were chosen: President, Prof. Hayes Thomas; First Vice President, Mrs. C. A. Hainline; Second Vice President, Miss Maggie Bauer; Third Vice President, Miss Eva Robinson; Secretary, Miss Louise Vaught; Treasurer, Miss Hettie Jones.

REUBEN STOCKDALE, for raising a disturbance at Mathews' mill a few days ago, was taxed \$12.65 by Judge Wadsworth this morning.

MR. PRESTON WELLS, of Forest avenue, who has been ill with fever several days, was resting easier this morning.

### To Separate Police and Politics.

Albany, May 8.—Governor Roosevelt has signed a bill passed by the legislature providing that any person connected with the police force, from commissioner down to patrolman, who shall use his official power either for or against any political party shall be guilty of a misdemeanor. The bill prohibits promotions for political reasons, contributions to or collections for political funds, and forbids any member of the police force from being a member of any political club.

### Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. J. Wood & Son, druggists, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

## FIERCE FIGHT IN SIGHT

Americans to Advance on a Large Body of the Enemy.

ARMED AND ENTRENCHED.

Six Thousand Native Troops at Bacolor Working Like Beavers Preparing For the Coming Fray—San Fernando as Headquarters.

Manilla, May 8.—To clear the Filipinos out of Bacolor, about five miles southwest of San Fernando, will be the next task of the Americans. The insurgent general, Mascardo, has a force of 6,000 men there, well armed and possessed of plenty of ammunition.

Bacolor is well entrenched, and thousands of natives are working like beavers, digging trenches and carrying the dirt in baskets. The enemy uses his rifle-men for fighting only, but compels the Bolomen and Chinese, and even the women, to labor incessantly. The insurgents have an outpost about a mile beyond San Fernando, with a trench that holds between 200 and 300 men. At that point several volleys were fired upon the camp of the Twentieth Kansas regiment.

In the vicinity of Laguna de Bay the Filipinos are extremely active, but the lines of General Owenshine and Colonel Wholley, who is commanding General King's brigade during the latter's illness, have been materially strengthened, and there is no danger in that direction.

The armed steamers Laguna de Bay and Cavadonga, under Captain Grant, have gone to Guagua, about five miles southwest of Bacolor, presumably to establish a base of supplies for the troops engaged in the northern campaign.

It is rumored that Mabini, president of the cabinet and minister of foreign affairs in the so-called Filipino group, who is a radical, is to be succeeded by Patreno, the framer of the Spanish treaty of 1896. This change is regarded as significant at the present juncture.

The entrance of the Americans into San Fernando was virtually unopposed. The Filipinos, who expected the invaders to approach from the sea, had both sides of the town strongly guarded, but there was only one mile of trenches beyond San Tomas. Two battalions of the Fifty-first Iowa regiment, which swam the river north of the city, were smartly peppered while in the water, but the enemy disappeared as soon as the Americans reached the shore. In the meantime the hospital squad walked across the bridge into the city, supposing the Americans were there. They encountered no natives. Before evacuating the city the insurgents burned the church and the public buildings and looted the Chinese quarters. They drove many rich Filipinos with their families out of the city before them, as well as hundreds of Chinese, to prevent their helping the Americans. They cut the throats of some. Many Chinese hid on rooftops or in cellars, and some escaped by cutting off their queues. There are 50 fresh graves in the churchyard.

The country beyond Calumpit is full of all sorts of ingenious trenches and pitfalls in the roads, with sharpened bamboo. Fortunately the Americans escaped the latter.

The army is really enjoying life at San Fernando, which is the most picturesque and wealthy town the Americans have entered since the occupation of Manilla. It is largely built of stone, the river is close at hand, and high hills almost surround it. Many sugar factories indicate a thriving industry in that respect, and there are numerous fine residences. General MacArthur's permanent headquarters is established in the best house in town, which is richly decorated with frescoes and carved woods. The troops are encamped around in the suburbs, and are beginning to think they may be quartered there during the wet season.

### Dewey's Health.

San Francisco, May 8.—On the steamship City of Peking, from China and Japan, was Dr. E. Page, surgeon of the flagship Olympia. He makes the following statement regarding Admiral Dewey's health: "Admiral Dewey is in perfect health. He has not been more than 20 miles away from Manilla since the first day of last May, and he has not felt the necessity of a physician's aid in that time. The admiral has determined to return to the United States in the Olympia by way of the Suez canal."

Nassau, New Providence, May 8.—The schooner Adela Ball, Captain Fisher, from New York April 26, for Matanzas, stranded on Harbor island on May 3. The vessel will be a total loss. The materials and cargo are being saved. The crew are safe.

INDICATIONS—Fair to-night and Tuesday; cooler to-night.

THE Cincinnati Enquirer Sunday contained an article headlined "A Christian Converted to Buddhism," telling that some French-American woman had become a priestess in theosophy and had gone to India to perfect herself in her adopted doctrines. The headlines, however, were wholly misleading, as the article in giving this woman's history says:

For a quarter of a century she had been known as a materialist, Socialist—some say Anarchist—a friend of Emma Goldman and others of that ilk. Twelve months before she became converted to Hinduism she was a prominent member of the Manhattan Liberal Club.

And with such a record as that, this woman is classed by the Enquirer as a Christian. Evidently the Enquirer writer doesn't know even a little bit about Christianity.

THERE are some people and some papers,—Republicans, of course,—that will defend or try to uphold trusts. Their attention is respectfully called to the following from the Boston Transcript:

It is pathetic news that comes from the little Pennsylvania village of Dunsmuir that has just been completely ruined by the action of the wire and cotton tie trusts. Upon acquiring all the factories in the place the trust closed them up without regard to the fate of the people whose sole means of livelihood the factories had been. Last week the venerable William Shinner, of Holyoke, when being importuned by the promoter for a reason for not giving an opinion upon his silk mill to the trust, replied, characteristically: "Gentlemen, I do not want my sons to grow up loafers." Here, however, is a whole community made workless perforce, and for no necessity except to put commissions into the promoters' pockets.

Why aren't the whistles blown the bells rung and jollifications held over victories our soldiers are winning over the Philippines? The Springfield Republican says:

The reason is clear to us all, partisans or critics, members of one party or the other, but fellow citizens all. We are ashamed of the situation in which the republic has been placed. It is time to call a halt, to get our bearings, to exalt liberty and to pledge freedom to all men as their birthright as well as our own.

And here's something more on the same point from the New Orleans Times-Democrat:

This butchery of a brave semisavage race, whose only crime is its dogged fighting for its freedom, is not the American people's war. The American people repudiate it while they blush for it. It is a war entered into by the administration without either the knowledge or sanction of the American people, and the mortality and sickness, the horrors and excesses that are marking its progress are not chargeable to the American people; they are chargeable only to the administration and in especial to President McKinley.

### IMPORTANT LIFE INSURANCE DECISION.

The Supreme Court of Brooklyn last week rendered one of the most important decisions ever handed down affecting the big life insurance companies. If this decision is affirmed by the higher courts it will affect nearly \$150,000,000 of surplus accumulated by the insurance companies conducted upon the mutual principle.

The court holds that the whole of the surplus and not a small part of it must be divided pro rata among the tontine policy holders or other policy holders whose contracts with the insurance company provide that the policies on maturity shall share in the surplus.

Heretofore, if a person who had, for instance, a tontine policy for fifteen years and who kept up his premiums, presented it at maturity, he not only received the face value of the policy, but also a share of a certain part of the surplus.

In the case decided last week the policy holder had a tontine policy for \$20,000 (in the Equitable) which he kept up and which matured two years ago. He got his money and a share of part of the surplus, amounting to \$4,000. He claimed that he was entitled to his pro rata share of the entire surplus and if he had received it would have been paid \$11,000 instead of \$4,000. The company resisted that claim; he sued and at almost exactly the moment that the death of President Hyde was announced, the Appellate Division handed down a decision affirming the justice of this man's claims.

A MEETING will be held Wednesday at 7:30 p. m. at Mr. T. D. Slattery's office to organize a bimetallic league. If you wish to join be on hand.

## FOR THE FARMER.

### Medium-Weight Hogs Taking the Place of the Heavy-Weights—Sheep and Lambs.

The heavy-weight hog is losing his popularity and the middle-weight swine is supplanting him in the affections of American pork consumers," says an exchange. "Hogs weighing from 200 to 250 pounds probably now have the call in our markets. The reasons advanced for this change are that cotton and oil products are forcing lard into the background by reducing the demand for it and therefore its price, and that lovers of breakfast bacon do not want six inches of fat on their side meat. Packing houses and butchers report that their customers regard the exceedingly fat hog with much disfavor, and it is thought his day will soon be over. Hog raisers will, of course, have to meet whatever conditions may arise in this regard. If the price of lard remains depressed, pork must be produced for its edibility and the most money it will bring, rather than for its heretofore great commercial product. There is no denying the fact that many housewives openly express their preference for cotton seed oil products in cooking, and whether their tastes are right or wrong, facts are facts, and our friend, the pork producer, must eventually be governed by them."

Over 60,000 horses were sold in New York City last year, and 58,000 died or were killed.

Country Gentleman: "Choice native sheep are selling about 30 cents per 100 pounds higher than a year ago, and choice lambs about 50 cents lower. The lamb supply was greatly increased by the very high prices obtained last year."

Some idea of how much the British people eat may be gathered from the amount of butter and oleomargarine imported last year. Of butter the imports were 320,909,300 pounds, and of oleomargarine 89,897,500 pounds. The butter imported cost the people of Great Britain \$99,800,855 and the oleomargarine \$11,918,870. Denmark furnished nearly 50 per cent. of the butter and Canada only about 3 per cent.

Representatives of harvesting machine manufacturers, who have been traveling through Clark County the past month, report a gloomy outlook for the wheat crop. They say their sales have fallen off at least 50 per cent. on account of poor crop prospects. Most of the fields are thin, and many of them are being plowed for other crops. Not more than a half crop will be harvested, it is thought.

### That Throbbing Headache

Bad blood had existed between the two for some time, and not a half hour elapsed from the time Hutcherson arrived in town until the fight occurred. Neither of the belligerents was seriously hurt, but it is thought that the trouble is not yet ended. Hutcherson recently published an article full of abuse and reflecting on Lucky's parentage.

### THE DEATH RECORD.

Mr. Ben Cook and Mr. William McCullough Answer the Final Summons.

Mr. William McCullough died at his home on East Third street Sunday morning at 3 o'clock. The deceased had been a most patient sufferer for several months. He leaves one son and three sisters.

His funeral will take place at the residence this afternoon at 4 o'clock, conducted by Rev. J. C. Molloy.

### BENJAMIN COOK.

Mr. Ben Cook died this morning at 6 o'clock at the home of his parents, Mr. and Mrs. David Cook, on Front street, just east of Walnut. He had been ill five weeks of a complication of diseases, his death resulting from inanition. Mr. Cook was forty-nine years old, unmarried, and was one of the hardest workers and most industrious citizens of Maysville. For thirty years he had been a faithful employe at Mathews' lumber mills, and it had been his pleasure and delight to minister to the wants and comforts of his venerable parents, who survive him at the age of about eighty years. The funeral will take place Tuesday at 10 a. m. at the residence, Rev. F. W. Harrop officiating.

### Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.

### TOM THOMSON,

Former Popular Resident of Maysville, Shot at Ripley by Al. Scholter.

The Wound Necessarily Fatal—Scholter Deliberately Shoots His Victim Down. A Sunday Morning Tragedy.

Ripley was the scene of a sad tragedy early Sunday morning.

About 7:30 Mr. Thomas Thomson, formerly of this city, was deliberately shot by Al. Scholter, in a livery stable conducted by the latter and Mr. Frank Boyd, a brother-in-law of the wounded man.

The ball entered just under the right eye, and it is thought lodged in the brain.

After his victim had fallen fatally wounded Scholter attempted to fire a second shot but was prevented by a negro employed in the stable.

A few weeks ago Thomson and Scholter had some trouble over an election. The former at that time was engaged in the livery business, and shortly afterwards disposed of it to his brother-in-law, Mr. Boyd. The latter a week or so later sold Scholter an interest in the stable. A iron safe belonging to Thomson was still in the stable office, and Scholter ordered Thomson to remove it and never set foot in the stable again.

Sunday morning at the hour named, Thomson who was starting on a short trip had occasion to use a telephone. There was one in the building adjoining the stable, and a passage led from the stable to this building. Thomson entered the stable and was met by Scholter. The latter angrily exclaimed, "I thought I told you never to enter this stable again," and pulling his pistol deliberately shot his victim down.

At the time he was shot Thomson was carrying an overcoat on one arm and had a valise in his other hand.

The wounded man is a brother of Mrs. H. L. Newell, of this city, and has many other relatives here. He resided in Maysville several years, and was popular among his many acquaintances. He is married, and has two daughters. His wife is a daughter of the late Captain Boyd, of Levana.

At last accounts the wounded man was still alive, but his physicians had no hope of his recovery.

Mr. STOCKTON B. TULLY and Miss Berta Alton will be married this afternoon at 2 o'clock at the home of the bride.

### THE SPANISH-AMERICAN WAR.

A Local Camp of the Service Men to be Organized in This City—Action Taken Saturday Night.

At a meeting of discharged volunteer soldiers, composed of late members of the Second and Fourth Kentucky Regiments, U. S. V. I., held at the Council Chamber Saturday night, it was unanimously decided to organize a local camp of "Service Men of the Spanish-American War," having for its ultimate object incorporation into the national society of that name.

The Chairman of the meeting—Captain Horace J. Cochran—upon motion, appointed Secretary W. E. Newell and Messrs. Benjamin T. Cox and M. Holladay Stitt, as a committee to draft a constitution, rules and by-laws to be reported at a called meeting, and by which, after adoption, the camp will be governed until its admission into the national society.

A resolution, expressive of the appreciation of those present of the courtesy extended them to take part in the dedicatory services of January Park to-day, and regretting their inability to accept same, by reason of the short time given for preparation, was adopted.

All honorably discharged volunteers are cordially invited to join the camp and lend their support. The rolls can be found at the Secretary's. Give him your name.

THERE is free travel over all roads in Montgomery County now.

The girl is the mother of the woman just as "the boy is the father of the man." The period when the womanly functions begin is one to be carefully watched and considered. Irregularity or derangement at this time may be promptly met and cured by the use of Dr. Pierce's Favorite Prescription. But neglected at this critical period may entail years of future suffering. "Favorite Prescription" acts directly upon the womanly organs giving them perfect vigor and abundant vitality. It removes the obstructions to health and happiness, and delivers womanhood from the cruel bondage of "female weakness." You pay the postage. Dr. Pierce gives you the book. The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

There was a considerable falling off in the amount of tobacco offered on the breaks the past week. This is not unexpected, however, as it happens every year about this time. The advance in price, which was reported last week, continued, and it can be said that there was further improvement on common and medium grades. Good tobacco was only sparingly offered. The bidding was active and everything offered was readily taken. The weather having been quite favorable for drying, summer order tobacco will be in market very soon; in fact, we are advised by several packers that they expect to have some of their redried goods on the breaks next week, and since the manufacturers are anxious to purchase, we think our customers will not make a mistake in extra efforts to be in market.

**MASON CIRCUIT COURT.**

Wm. C. Minor's Adm'r. Plaintiff.  
Against  
Bettie B. Smoot, &c. Defendants.

In obedience to a judgment and order of sale of the Mason Circuit Court, rendered in the above mentioned cause at the February term, 1899, I shall, on

**MONDAY, MAY 15, 1899,**

at 2 o'clock p. m., on the premises, proceed to sell at public auction to the highest bidder, on a credit of one, two and three years, the following real property to-wit:

First—All that certain lot or parcel of real estate being situated and fronting on the northeast corner of Second and Sutton streets, in the city of Maysville, county of Mason and State of Kentucky, bounded by a line beginning at the corner of said Second and Sutton streets and running thence up Second street twenty feet and seven inches to the center of the division wall between this lot and the lot of S. N. Meyer; thence with the line of the center of said wall, parallel with Sutton street, back toward the river eighty feet and six inches to the property of Salice, formerly Collins; thence with the line of said property twenty feet and seven inches to Sutton street; thence with the line of Sutton street to the beginning, together with the three-story brick building thereon.

Second—That certain lot or parcel of real estate being situated and fronting twenty-four feet eight inches on the north side of Second street, in the brick row, between Wall and Short streets, in the city of Maysville, county of Mason and State of Kentucky, and running back northwardly the same width to an alley that runs parallel with Second street, together with the buildings thereon.

The purchaser must be prepared to promptly execute bond, with approved security, for the purchase price, which bond shall bear legal interest from day of sale until paid.

J. N. KEHOE, Master Commissioner.
